

FEATURES

- Compact Size is Only 1" Thick
- Solid Cast Aluminum Construction
- Mounting Compliant to 100mm VESA Standard
- Connects and Secures all I/O and Power Connections
- Self-Aligning, Self-Locking Design
- Quick Release Permits Easy Removal of Computer
- Interfaces to All M3 Series Tablet Computers
- **Internal 12V Power Supply - No External Charger Needed!**

**Featuring
Live Connect/
Disconnect
without Lockup!**

Designed Specifically For **M3 SERIES**

DuraTab's Dock-M3 provides the user of M3 Series tablet computers with an effective means to mount and secure all external peripheral wiring in a compact, easy to install package. Measuring just 10.1"L x 6.3"H x 1"D, the dock interfaces to the M3 Series computer's port I/O connector and securely mounts without adaptation to all 100mm VESA compliant mount systems and routes all external wiring through the bottom of the unit. A unique integral locking mechanism allows quick and easy locking or removal of the computer to the dock without the need for additional hardware. *Internal power supply circuitry eliminates the need for an external power supply and power management permits "live" mounting/dismounting of computer from dock without software or system lockup.*

SPECIFICATIONS

Connectivity

- (Standard Configuration)**
 HighRel Tablet interface Connector
 5 USB 2.0 Ports
 1 Ethernet Port, (up to 3 total)
 2 PS2 Ports
 Optional Serial (DB9) Port (up to 2 total)
 Input: 11-14VDC, Optional 16-19VDC

Internal DC Supply - No External Charger Required
Any port configuration can be provided - Consult Factory

Mechanical

- Size: 10.1"L x 6.3"H x 1"D
 Mount: 100mm VESA mount pattern
 Weight: 2.5 lb (1.13 kg)
 Case: Cast Aluminum, Black
 Locking: Quick release type

Environmental

- Operating Temp: -20 to +70 Deg C
 Ingress Protection: IP53
 Vibration: Composite wheeled profile
 Shock: 40g (operating), 75g (crash)
 Drop Test: MIL STD 810F, Method 506.4

Regulatory

- Safety: UL/TUV 60950
 EMI: FCC 15/B
 CE Mark
