

Proudly Made in the USA

DuraTab proudly announces its' "Fire & Rescue" series tablet With "DuraCoat"

*A specially formulated polymer coating that will not scratch, crack or chip.
Water and Chemical resistant*

Specifically designed for true mobile communications, DuraTab's "Fire and Rescue" series.

This unique design allows users the comfort of a durable tablet PC with the power of Windows XP Pro operating system. The DuraTab system lets you work free from worry that harsh computing environments will damage your tablet whether it is dropped banged or exposed to constant vibration. The tablet can also be placed in a zip lock bag for operation during medical assistance. The powerful processor allows for fast response when needed. Storage space is never a problem with the full range of hard drives from 40GB to 80GB. The large 12.1 LCD touch screen needs only your finger to operate. There is no need for a digital pen or special stylus. The rechargeable Lithium battery provides continuous power for 6 to 7 hours of constant usage. All these features packaged within a cast aluminum case **with no fan** and **sunlight readable** LCD screen...
