

Proudly Made in the USA

## *DuraTab proudly announces its' "LE" series tablet for Law Enforcement*

(Shown with pedestal mount and StacoSwitch keyboard)

DuraTab's "LE" (Law Enforcement) series is designed exclusively for Law enforcement applications. Its unique design allows **True Mobile Communications** with the power of Windows XP Pro O.S... Our 100% **American Made** tablet allows worry free work in harsh computing environments. The "LE" is designed for exposure to constant vibration and will not be damaged if banged or dropped. The powerful processor allows fast response whenever needed. Storage space is never an issue with our full range of 40GB to 80GB hard drives. The large 12.1 LCD touch screen needs only your finger to operate. There is no need for a digital pen or stylus. All "LE" series tablets come with screen rotation software allowing mounting in various vehicles or existing mounts. The optional touch transparent screen keyboard and voice recognition software are designed for ease of use and accuracy. The rechargeable lithium battery has a range of 6 to 7 hours of usage. All of these features are packed within a cast aluminum case **with no running fan**. All DuraTab "LE" series include our unsurpassed 24 to 48 hour repair or replacement guarantee.
